

- A. The State University Presidents Association of Florida has determined and endorsed five principles for reorganization:
1. The devolution of those powers formerly held by the Board of Regents and now held by the Board of Education to the Universities Board of Trustees should occur as soon as possible.
  2. State universities should be classified as non-state agencies with powers and authorities similar to bodies corporate.
  3. Flexibility in the setting of tuition should be given to the Boards of Trustees.
  4. Boards of Trustees should set standards of accountability that reflect the university's mission.
  5. Boards of Trustees should be given lump sum budgets that will be the basis for adequately funding the University's operations and programs.

This will require a major statewide lobbying effort for the legislative session that starts in January.

B. Base Budget Reductions for the 2001-2002 and 2002-2003 academic years amount to a 4.60 percent permanent reduction, based upon an analysis of the special legislative session appropriation. The largest contributor to this amount is \$4,500,000 in fee waiver reduction. This reduction, coupled with the non-recurring add-backs for 2001-02, results in a net percentage budget reduction in 2001-2002 of 3.43 percent.

C. The Governor has proposed that certain class of employees will not receive the 2.5 percent salary increase this year. Employees affected are those not covered by a union and those making over \$90,000 a year.

A motion was made and seconded to:

1. Endorse the five Principles for Reorganization as determined by the State University Presidents Association
2. Allow the university to control how budget cuts are implemented at the local level
3. Question the distribution of 2.5 percent salary increase

The motion was amended to endorse points 1 and 2. Chairman Temple will pass along concerns of the Board regarding the distribution of salary increases.

The amended motion was passed unanimously.

D. The Capital Campaign ended with a fantastic gala with an announcement of \$220 million raised. Announced at the gala was a \$20 million donation to name the Honors College.

E. President Bush has mandated increased monitoring and reporting requirements for foreign students with special emphasis on students holding visas from Iran, Iraq, Syria, Sudan and North Korea. Currently enrolled students from these countries are monitored closely for compliance with INS regulations. The Board supports a national database for foreign students under the newly created Student Exchange and Visitor Information Center (SEVIC).
